

# Learner Notification

---

American College of Medical Toxicology

2023 ACMT Seminar in Forensic Toxicology: Expanding Worlds of  
Cannabinoids & Polydrug Exposures

Date of CE Release: 12-14-2023

Date of CE Expiration: 12-15-2024

Location: Online

## **Acknowledgement of Financial Commercial Support**

No financial commercial support was received for this educational activity.

## **Acknowledgement of In-Kind Commercial Support**

No in-kind commercial support was received for this educational activity.

## **Satisfactory Completion**

Learners must listen to each self-directed audio recording while following along with the visual slides/read the articles, and complete an evaluation form to receive a certificate of completion. Your chosen sessions must be attended in their entirety. You must participate in the entire activity as partial credit is not available. If you are seeking continuing education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

## **Joint Accreditation Statement**

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and American College of Medical Toxicology. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Amedco Joint Accreditation Provider Number: 4008163

## **Physicians**

### **ACCME Credit Designation Statement**

Amedco LLC designates this material for a maximum of 12.00 *AMA PRA Category 1 Credits™* for physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

## **Objectives - After Attending This Program You Should Be Able To**

1. Recognize the historical and legislative drivers of cannabis legalization and cannabinoids.
2. Evaluate laboratory testing challenges and pharmacological mechanisms of cannabinoids.
3. Describe the complexities and challenges of forensic and medical toxicology in cases involving polydrugs.

## **Disclosure of Conflict of Interest**

The following table of disclosure information is provided to learners and contains the relevant financial relationships that each individual in a position to control the content disclosed to Amedco. All of these relationships were treated as a conflict of interest, and have been resolved. (C7 SCS 6.1-6.2, 6.5)

All individuals in a position to control the content of CE are listed in the program book. If their name is not listed below, they disclosed that they had no financial relationships with a commercial interest.
